

# Homeland in Security

## How does the “Homeland Security Act” protect YOU?

By creating the “**Information Awareness Office**” to gather every public and private act of every US citizen into “a virtual, centralized grand database” for the purpose of creating computer dossiers on 300 million Americans. —(source: US Defense Department)

The Office of Homeland Security will collect all transactions and communications:

- every purchase you make with a credit card
- every magazine subscription you buy
- all medical prescriptions you fill
- every Web site you visit
- every e-mail you send or receive
- every academic grade you receive
- every bank deposit you make
- every trip you book
- every event you attend

Add to that every piece of information that government already has about you:

- passport application
- driver’s license
- bridge toll records
- judicial and divorce records
- complaints from nosy neighbors to the FBI
- your lifetime paper trail
- the latest hidden camera surveillance
